@GreenVET4U

GreenVET4U project aims to enhance the capacity of Vocational Education and Training (VET) providers and private entities to bridge the gap between skills demand and supply in Uganda by designing and delivering innovative curricula focused on Skills for Green Jobs.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

GreenVET4U

Building the capacity of VET providers and private entities to cooperate designing and delivering innovative curricula in skills for Green Jobs in Uganda

THE OBJECTIVES OF THE GREENVET4U PROJECT ARE:

Project partners will cocreate a set of innovative training contents and digital supported tools **to upskill Ugandan VET practitioners and in-company trainers**, target users of the project, to Design and Delivery Innovative Curricula in Skills for Green Jobs. They will test their skills during the project adapting the design of innovative curricula to the eco-tourism and waste-management related jobs, providing in-company work-based learning experiences to young people, women and migrants from unprivileged communities in Uganda, target beneficiaries of the project, to test innovative practices **to prepare learners and VET providers to become true agents of change** and create inclusive environments that foster equity and equality, and that are responsive to the needs of the wider community.

PROJECT RESULTS

The project develops the following concrete results

- A **virtual collaborative space and innovation lab** to support the activity of a Community of Practice of VET providers and practitioners of Uganda, Spain, Germany, Italy and other EU Member States.
- A **Competences Matrix on Design and Delivery of Innovative Curricula in Skills for Green Jobs**.
- A **Training Programme** addressed to Ugandan VET practitioners and in-company trainers to upskill their competences to design sector and job specific curricula for green jobs, to be delivered in both VET centres and high-quality inclusive work-based learning programmes in companies and other non-for-profit entities.
- A multifunctional **Online Platform to support online training** provision and management and provide access to information and resources.
- A WebApp solution to support the assessment and validation of learning outcomes in VET and the **certification of Micro-credentials**.
- **Guidelines for Validation, Certification and Accreditation of Skills for Green Jobs through Micro-credentials**, a document of reference for VET practitioners, authorities and policy makers.
